Contact Email: Danl@snowflake.k12.az.us, marko@snowflake.k12.az.us

School Site: Snowflake Junior High School

Buildings: 1002 200

Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

In October of 2011 the Maintenance Department found that the two heaters on the gym had a delayed ignition and blow out. We found that wires were melted can the controls burned and melted. At that time the district had three different heating and cooling companies inspect the units to determine if they were repairable. All the vendors informed the district that it would cost more to repair then to replace. The burners had swollen and cracked and the heat had melted the louvers that then fell down into the ductwork.

These units heat the gym and this is also the cafeteria. These units have been out of use since October 2011. It gets very cold in this building. The school has classroom instruction in this facility and when the temperature is so cold the classes have to be relocated. The district did obtain some bids that ranged between \$50,000 and \$60,000. This did not include the mechanical or structural engineering. The bids are for two Trane 15 ton heating and cooling units.

Project Category: HVAC

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding

| | |
|--|------------|
| Current unencumbered building renewal fund balance (Fund 690): | \$3,431.36 |
| Amount of Local funds planned for this project | \$0.00 |

Please outline any associated insurance coverage.
